

***Breakaway from Cancer***  
**Quote Sheet**

**The National Coalition for Cancer Survivorship**

“We are very excited to be a partner in the *Breakaway from Cancer* initiative for a third year. *Breakaway from Cancer* not only raises awareness about valuable resources for people affected by cancer; it brings the community together in support of cancer survivors.”

— *Ellen Stovall, President & CEO*

**Patient Advocate Foundation**

“Patient Advocate Foundation is proud to partner in the 2009 *Breakaway from Cancer* initiative as those affected by this disease are honored and recognized for both the hardships and victories associated with the diagnosis and treatment. As cancer remains the primary disease served by PAF, we recognize the importance of education and awareness and are hopeful that through team work we can make a positive difference in the cancer community as we continue to help our patients diagnosed with cancer break away from the disease and lead a high quality life.”

— *Nancy Davenport-Ennis, President & CEO*

**Prevent Cancer Foundation**

“*Breakaway from Cancer* is a novel approach to educating the public about cancer, from prevention to survivorship and highlighting the wealth of information that is available to men and women both before and after a cancer diagnosis. The Prevent Cancer Foundation has focused on the front end of this effort - prevention - funding research, providing screening services and education since 1985. We encourage all men and women as part of *Breakaway from Cancer* to learn what they can do to reduce their risk of cancer.”

— *Carolyn R. Aldige, President and Founder*

**The Wellness Community**

“Thanks to awareness initiatives like *Breakaway from Cancer*, patients, caregivers and survivors feel empowered to seek out resources, like those provided at The Wellness Community and other organizations, to help them take an active role in their cancer experience.”

*Kim Thiboldeaux, President and CEO*
